## CAMP GUIDE 2009

I'm so excited about the Beasley National Soccer School 2009 Summer camps. We had a great first year and I enjoyed meeting many talented players. It was also rewarding for me to work with the future soccer stars in the area. Of course, we all know that fundamentals (i.e. the basics) are important to the game of soccer. One of the ways the Beasley National Soccer School is

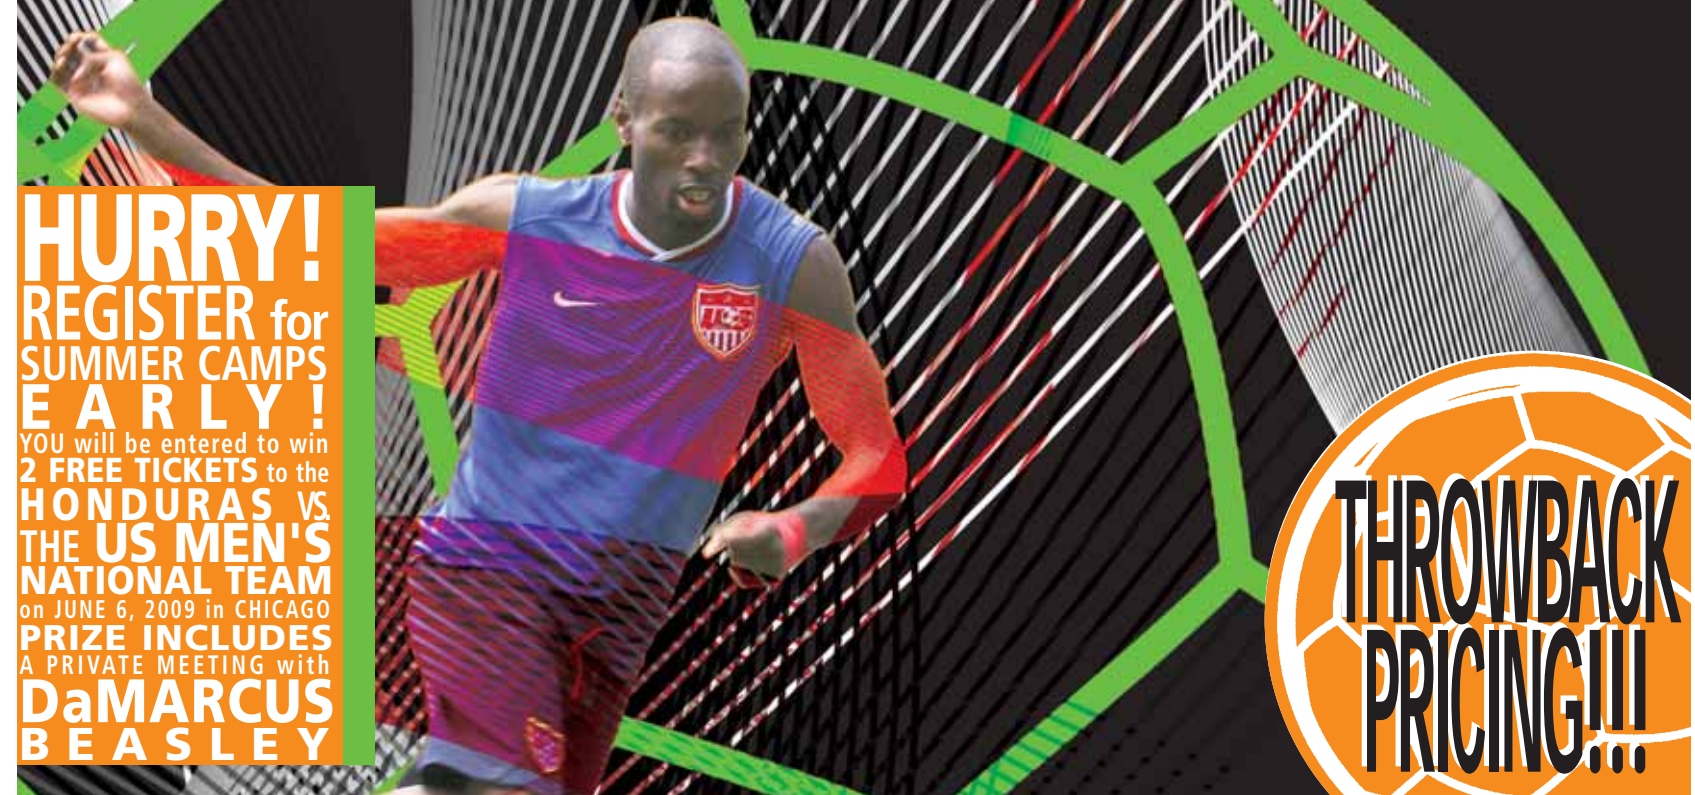

getting back to the basics in today's challenging economy is with "throwback" camp prices. Check out the camp programs page and you'll see camps fees as they were five years ago. It's our way to get back to the fundamentals. The price may be basic but the opportunities provided are extraordinary. Be sure to keep your eye on my website ([www.beasleynationalsoccerschool.com](http://www.beasleynationalsoccerschool.com))

for additional information and special camp prizes and guest appearances. There is a lot of excitement in store at the Beasley National Soccer school "throwback" camps this summer. I look forward to seeing you there!

FUNDAMENTAL CAMP

Special Summer Throwback Price: \$70  
Co-ed Half Day Camp: Ages 5 through 7  
Monday-Friday 9am-12 Noon

The Fundamental Camp program concentrates on individual development during this crucial stage of learning. Our staff has created exercises and various games that are fun and are geared to educate and improve the motor skills and mechanics of the player's game. We focus on footwork, various dribbling options at speed and in tight areas, simple passing exercises and the technique of shooting. Focusing on individual technique builds a strong foundation and a level of comfort with the ball.

FUNDAMENTAL-INTERMEDIATE CAMP

Special Summer Throwback Price: \$105  
Co-ed Day Camp: Ages 8 through 14  
Monday-Friday 9am-3pm

The Fundamental-Intermediate program concentrates on both individual and small group development. At this stage we continue to develop the player's technique, individual skills, footwork, dribbling, passing and shooting along with teaching simple defensive techniques and individual possession. Our Staff will also introduce small group tactics, learning group defensive techniques and how to develop combination play. The Beasley National Soccer School instructors understand all aspects of the game, not the least of which is mental preparation and strategic thinking. Understanding non-verbal cues and improving decision making skills is crucial to the game. This unique environment encourages each player to develop individual skills and decision-making abilities.

ACADEMY LEVEL CAMP

Special Summer Throwback Price: \$160  
Co-ed Full Day Camp: Ages 12 through 18  
Monday-Friday 9am-5pm

The Academy level camp will further develop the understanding of the team concept. The training objectives of this camp will be more extensively focused on technical work, combination play and group possession. At this stage we strive to enhance the soccer maturity of the player by challenging them to read cues, act under pressure and develop a deeper understanding of the game through game-related and game-conditional situations. Our qualified Staff will continually evaluate players and provide feedback throughout the week allowing participants to refocus and execute the mechanics of what they are learning in large field activities.

GET TO KNOW DaMarcus BEASLEY

DaMarcus Beasley, a remarkable two-way player, possesses lightning speed, quick feet and intelligent defensive instincts. In March 1999, at 16 years and 10 months of age, he became the youngest player to sign a Major League Soccer contract. During his MLS stint with the Chicago Fire, DaMarcus was the first player under the age of 21 to be voted to the MLS BEST XI list. In addition, he was named one of World Soccer Magazine's "Top 100 Rising Stars" in the world! After four years with the Chicago Fire, DaMarcus began his international career in a multi-million dollar transfer to PSV Eindhoven in the Dutch league of Holland. He instantly adapted to European play becoming a consistent goal scorer. His debut dream season with PSV was capped by capturing the Domestic Double, winning the Dutch Eredivisie title and Amstel Cup. DaMarcus continued his professional career in Europe playing on loan for Manchester City of the English Premier League. In the summer of 2007 with multiple clubs vying for him, his rights were sold to the Glasgow Rangers of the Scottish Premier League, where he made an impact upon arrival. In addition to his club commitments, DaMarcus was a star player for the U.S. National team. Exploits for club and country made him a finalist for the 2005 U.S. Soccer Male Athlete of the Year. He played a key role in the USA's qualification for the 2006 FIFA World Cup. He displayed his prowess by scoring four goals, which tied him for third highest number of GOALS scored by a U.S. Player.

Beasley identified Akil Watts, a nine year old of the Fort Wayne Fever Academy as an exceptional talent and will lead the search for opportunities that can increase Akil Watts exposure to higher level academies abroad. This was due to his involvement in the Beasley National Soccer School.

**DO YOU HAVE WHAT IT TAKES??? Will YOU BE THE NEXT TALENT IDENTIFIED???**

BEASLEY NATIONAL SOCCER SCHOOL IDENTIFICATION PROGRAM

While attending a Beasley camp, participants will have an opportunity to develop their skills and improve their overall capabilities. Participants will get exposure to Damarcus Beasley and his staff and have the opportunity to showcase their skills and unique abilities. DaMarcus will have the means to push young talent and recommend them to overseas academies. With his network capabilities, he can recommend players who possess such

talent to the National Team Programs. Today's player will take full advantage of what this school has to offer; opportunity for growth as a player, exposure to be considered and be pushed to greater levels either here, in the states or overseas. Let DaMarcus and his staff affect your development and opportunity for growth in the soccer world. There is only one way for that to happen: Join our soccer school and be a part of our network.
